2nd November 2022

Dear Colleagues,

As the second largest professional group of registered health practitioners in Ireland, Health and Social Care Professionals play a vital role in digital health and in planning for future implementation of connected digital health.

A digitally enabled health service improves patient outcomes, enhances working lives and enables the realization of HSE imperatives and Sláintecare.

The National Health & Social Care Professions Office is delighted to announce 5 funded places on the MSc in Digital Health Transformation. (www.digitalhealthtransformation.ie) for 2023.

This course aims to develop digital health transformation skills, knowledge and abilities to:

- Explore healthcare ecosystem developments, engaging patients, providers, payers, policy makers to facilitate collaboration and knowledge sharing to realise the value potential of these innovative partnership;
- Lead core, adjacent and transformation innovations in a healthcare environment, taking a disciplined approach to advancing their understanding of exponential technologies (such as mobility, genomics, imaging and analytics) in order to realise the transformative power of digital disruptions

We would ask that you distribute this to interested health & social care professionals in your organisation. The application process is attached in addition to the programme brochure and HSCP scholarship application form. The closing date for applications is Monday 14th November 2022.

We look forward to supporting successful HSCP candidates on the Programme.

Warm regards,

Ruth Kilcawley
HSCP Development Manager, National HSCP Office
