

HSCP Day - April 19th 2023

We are delighted to announce the theme for this year's HSCP Day
'HSCP- Moving Forward Together'.

Since the launch of HSCP Deliver, A Strategic Guidance Framework, significant work has continued to strengthen the role of HSCPs across our health service. The impact and value of HSCP for service users/patients and in delivery of Sláintecare is recognised and there is an appreciation that investment is needed to ensure the supply, capacity and sustainability of the HSCP Workforce.

With this in mind there is significant value in sharing and celebrating the ways we are currently working together to strengthen the collective impact of HSCPs and look to identify solutions together on the challenges which present.

What we are doing:

On the day itself, we want to share some of the work we are undertaking to deliver on our nine commitments in HSCP Deliver. Further details on how we will do this will be communicated in due course.

What we are asking you to consider:

We are asking you to consider the value of all the ongoing work HSCPs are engaged in on a daily basis, and look to recognise and celebrate this work together in whatever manner suits your service. Please capture your events on Twitter on the day using the hashtags below.
